[1] In the paper “Aerosol and trace-gas measurements in the Darwin area during the wet season” by G. Allen et al. (*Journal of Geophysical Research*, *113*, D06306, doi:10.1029/2007JD008706, 2008), Table 7 included a few small errors. The correct table is given here.

^aThe uncertainty represents the upper and lower 95% confidence level. The fine and coarse mode parameters refer to spectra measured by the ASP and FSSP, respectively.
