

## Geography and Surveillance

- ❑ Where are you being watched?
- ❑ Does your school have CCTV cameras?
- ❑ Do they make you feel safer?
- ❑ Did you know your location is tracked from your mobile phone?
- ❑ Who should have access to this data?

**Surveillance varies across space and is felt differently depending on who you are and what you are doing**

**These are issues you could be studying if you came to do Geography at Manchester**
