

“A Framework for the Real-Time Execution of Cellular Automata on Reconfigurable Logic” – CORRIGENDA

Nikolaos Kyparissas, May 2020

DOI: [10.26233/heallink.tuc.84584](https://doi.org/10.26233/heallink.tuc.84584). Published online in February 2020.

In the above undergraduate diploma thesis:

1. On page 20, the notation of n 's range should be: $n \in [3..29]$.
The notation $i \in [j, k]$ is often used in computer science to describe integer ranges, but in that case it should have been introduced as a notation at the beginning of the text.
2. On page 27, under fig. 4.9: $c \times w$ should be $c + w$.
3. On page 31, in the third paragraph: $x \times b_l$ should be $y \times b_l$.
