

LinkedIn Academy 2017

Alumni Search (old)

- Navigate to The University of Manchester's page on LinkedIn by either selecting the logo from your profile page or by typing it into the search box on LinkedIn (you may need to select 'Schools' to find it).
- You can search Alumni profiles using the following criteria:
 1. Search the set of Alumni profiles using a key word
 2. Search for profiles between specific dates (attended or graduated)
 3. You can also search depending on where they live, work, what they do, what they studied and what they are skilled in (the last two can be viewed using the arrow icons at the side of the bar charts).
 4. and 5. You can also click on the individual bars and the search icon  to search within the results
 6. You can also search for Alumni who attended different universities

Use Alumni Search to explore...

- What previous people from your own course went on to do after they graduated
- What people who studied a course you are considering went on to do after it – is it right for you?
- Where Manchester alumni work and for whom
- What work experience or activities they did as a student – what do you need to do now if you are aiming to work in the same area?
- What groups are they members of? Which organisations are they following?

Tip: Joining The University of Manchester Alumni Association group is an excellent way to interact with Manchester Alumni. Alumni members often indicate in their profiles whether they are happy for students to contact them directly. Look out for School and Discipline specific groups too, as well as those for Alumni in different locations across the world.
