

ANALYSIS ASPECTS OF DYNAMICS

The event aims to bring together experts working on analysis and dynamics, and enhance the interaction between these fields. In particular we will focus on the interface of analytic dynamics and geometric analysis (quasiconformal geometry and quasiregular maps), keeping in mind other aspects as well.

Organisers

Davoud Cheraghi

Imperial College London, UK

Vlad Markovic

Caltech, California, USA

Tuomas Sahlsten

University of Manchester, UK

IMPERIAL COLLEGE LONDON

16-18.MAY.18

Invited Speakers

Kari Astala

Aalto University, Finland

Dmitry Belyaev

University of Oxford, UK

Tanja Eisner

University of Leipzig, Germany

Ursula Hamenstädt

Universität Bonn, Germany

Igor Krasovsky

Imperial College London, UK

John Mackay

University of Bristol, UK

Daniel Meyer

University of Liverpool, UK

Pekka Pankka

University of Helsinki, Finland

Mark Pollicott

University of Warwick, UK

István Prause

University of Helsinki, Finland

Steffen Rohde

University of Washington, Seattle, USA

Caroline Series

University of Warwick, UK

Gwyneth Stallard

Open University, UK

Sebastian van Strien

Imperial College London, UK
